

## Nationwide companies choose Burnley's K2 for their storage & logistics solutions

Central location of K2 Storage Solutions serves businesses from as far as London and the South

**K2 Storage Solutions, on Burnley's Shuttleworth Mead Business Park, is a modern, 110,000 sq.ft world class warehouse facility, handling the warehousing and distribution needs of companies across the UK – and as its name suggests it's a mountain of a modern warehousing facility.**

Companies from as far as London and the south are using K2 Storage Solutions as the base from which to store and distribute their stock throughout the UK and across Europe.

The key to the growing success of K2's storage and distribution is Burnley's central location, with excellent motorway connections, and their unique technology and software which allows customers to check their stock levels on line and arrange for delivery and withdrawals from their own pc.

Group Property Manager, David Wilson said "We've made a huge investment in the latest equipment, technology and software to produce a 17,000 pallet capacity warehouse capable of handling a significant amount of palletised stock.

"What sets us apart from other storage companies is the unique service

we provide to our customers. We have 50 years of storage and logistical experience coupled with our bespoke technology.

"We can make great savings for companies who seek external warehousing for their excess stock, saving on rental costs, rates, utilities, burglar alarms and monitoring, and off site labour."

David adds : "We see our growing business as supporting the regeneration of Burnley and where we can, we try and work with and use local businesses. We employ 20 full time and up to 50 temporary staff, with plans to set on more permanent staff in the near future. Our nationwide customers are impressed with our facility and pleasantly surprised at what Burnley has to offer."

The huge K2 storage and distribution facility was acquired in 2005 by footwear specialists 'The Sutton Group of

Companies' to handle the warehousing and distributions requirements of the group. The company diversified from manufacturing to storage and logistics excellence which allows their customers to concentrate on their core business needs.

Mark Richardson, Managing Director of Wynsors World of Shoes, who have recently opened a store in Burnley says "K2 Storage Solutions offers our company a full third party logistical service.

"Access to view, deliver and withdraw stock via their online service is an invaluable asset which sets K2 apart from the rest and we see them as an integral part of our infrastructure."
